### Lightweight – precise – rugged – reliable!

# Transferpette Solutions for Science

### FIRST CLASS · BRAND

The Transferpette<sup>®</sup> *S* pipettes provide all features required for pipetting in Life Science applications.

#### Effortless one-handed operation

Set and lock the volume, pipetting, ejecting – all without shifting hand position!

#### Clearly visible volume display

4 digits for precise setting. Always visible, even while pipetting.

#### Autoclavable without disassembly

The Transferpette<sup>®</sup> *S* is completely autoclavable!

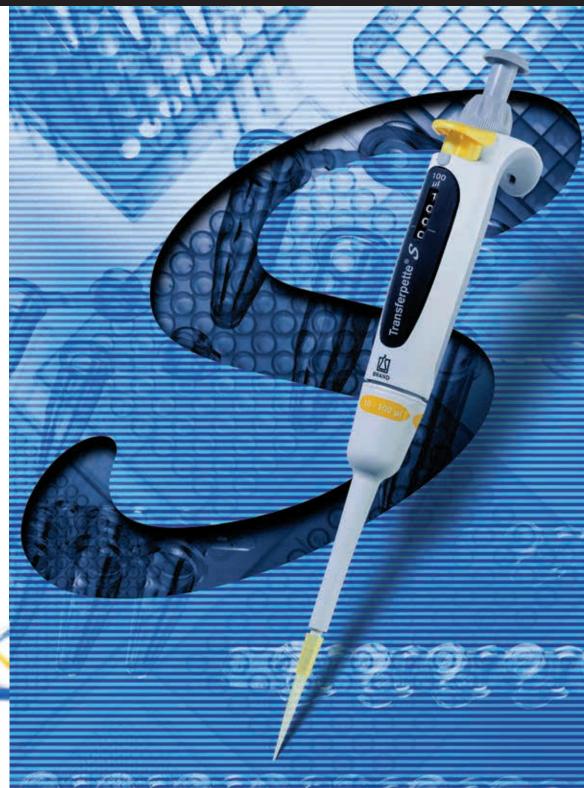

#### Calibration adjustment without tools

Made possible by the Easy Calibration technique.

#### Complete range from 0.1 µl up to 10 ml The whole range can be covered with only 5 models.

3-year warranty

sealing material allow uniform and

#### Transferpette<sup>®</sup> *S* – the result of intensive ergonomic and operational studies.

The use of newer, innovative materials has produced a pipette that is light, high-precision, robust and dependable, all at the same time - ideal for demanding laboratory applications.

Particular advantages include the convenient one-handed adjustment and operation, 4-digit volumetric accuracy, full autoclavibility and BRAND's Easy Calibration technique. The piston operates easily and jerk-free, for effortless pipetting with a light touch. All of these features make the Transferpette<sup>®</sup> S a convenient, very reliable pipette in everyday lab routine.

#### ■ 3-year warranty

- Corrosion-resistant piston
- Innovative plastic materials
- UV resistant
- Centrally located pipetting button and separate ejection key
- CE-IVD -compliant
- Volume range from 0.1 µl to 10 ml
- Transferpette<sup>®</sup> S 0.1 1 µl and 0.1 2.5 µl - highest precision for molecular biology, especially for pipetting enzymes.

# Transferpette $^{\circ} S$ Solutions for Science

Secure! A brake helps protect against accidental volume changes.

Clearly accurate! . 4-digit volume display Transferbottes for precise volumes. Always remains visible during pipetting.

Color coded Easy selection of the right tip.

0

the outside (according to ISO 8655).

Maximum protection Completely autoclavable at 121 °C (20 min) without disassembly - for maximum protection from contamination!

For working in close... If the tip fits in the vessel, so does the shaft - no retrofitting necessary!

Maximum compatibility The tip cone design offers excellent fit with pipette tips from BRAND and broadest compatibility with tips from most other manufacturers.

Transferpette<sup>®</sup> S 10 ml

One-handed volume setting for both right- and left-handed users

#### Calibration adjustment

The Easy Calibration technique makes it easy. Adjustment from factory settings is clearly visible from
