Accumax Tips

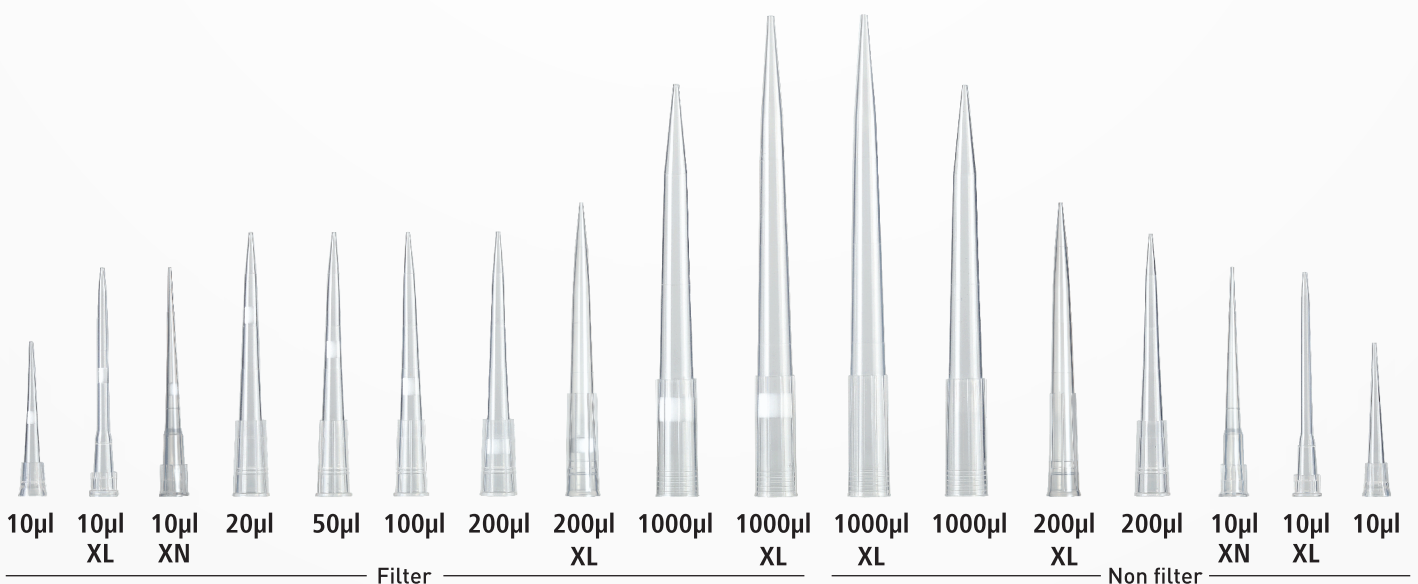

Accumax Tips

Quality and purity are of the utmost importance when it comes to using tips in laboratories and clinics as it has a huge impact on the final outcome of your work. But, in today's market, most profits come before quality which results in a less-than-satisfactory experience for the customer. Most of the tips manufacturing companies around the world produce tips in open environment with very little access control. Also, they utilize reprocessed material which not only decreases transparency but also affects other aspects of quality.

With a superior manufacturing infrastructure that boasts of a fully automatic human touch-free manufacturing

plant with clean room class 100K Accumax is the gold standard when it comes to purity and quality in manufacturing of Tips. Using state-of-the-art manufacturing techniques and raw materials and sticking to established standards, every batch of Tips that leaves the manufacturing assembly speaks volume about our impeccable manufacturing infrastructure and stringent quality control process.

As a result, these high-quality Tips are certified to be free from all affecting biological elements such as DNase, RNase, Endotoxin, Pyrogen and ATP.

Product Features

World-class Look Class Clean Room Infrastructure And Facility For Tips & Tubes Manufacturing

US FDA Approved Medical Grade Virgin Polypropylene Plastic Without Any Trace Of Metals. Highly Transparent And Clear

Swiss-made Diamond Finish Mold For Flawless "Super Smooth" Internal Surface

Certified DNase, RNase, Pyrogen, Endotoxin, Human DNA & PCR Inhibitor Free.

Non Cytotoxic

Special Orifice Design Prevents DNA Denaturalization

Product Features

All Tips Have Graduation Marks Which Act As Visual Checks To Minimize Any Risk Of Errors During Sample Aspiration

Designed to be adaptable with a wide range of pipettes

Low Retention Tips. Free From Any Softening Agents Which Could Influence Sample Results

Specially Developed PE Filters Stop Aerosols & Contamination From Entering Into Pipette And Thus Lessens The Risk Of Cross-contamination

Multiple Packing Options - Rack, Bulk & Reload

Opt for GreenMAX and contribute
to sustainable environment

Accumax GreenMAX Tip Racks

Minimum Plastic – Maximum Environment!
Available for 10ul, 200ul, 1000ul and
1250ul Tips.

Accumax **GreenMAX** Tip Racks are the way to go if you're looking for innovative, sustainable lab consumables. Not only are they eco-friendly, but they also come in robust cardboard racks. They prove to be the perfect solution for those looking for a sustainable alternative to plastic racks. These racks work seamlessly with both single-channel and multi-channel pipettes, making loading and unloading tips a breeze. From an environmental standpoint, Accumax **GreenMAX** Tip Racks goes significantly beyond any other Tip rack to reduce its carbon footprint.

GreenMAX Tip Racks

Sustainable Packaging

Reduces your plastic consumption by 60%

Guilt-free disposal

Works seamlessly with single and multi-channel pipettes

Advantages over Plastic racks

- ✓ Saves space with a compact format that can be easily crushed and disposed.
- ✓ Light weight material that facilitates lower cost of disposal and transport.
- ✓ By using 100% biodegradable paper material in our tip racks, we are able to reduce plastic consumption by 60% compared to traditional tip racks.
- ✓ Material used is built to last, providing durability that rivals plastic racks. You can trust that your tips will remain intact until the very last one is used.

- ✓ Our technology minimizes the risk of particles collecting on the surface of the tips, reducing the possibility of contamination and error.
- ✓ **GreenMAX** Tip racks facilitates easy and guilt free disposal after use.
- ✓ By using these racks, you can eliminate plastic burden associated with traditional pipette tip storage and operation.
- ✓ These racks are non-autoclavable and pre-sterilized for immediate use.
- ✓ Tips and Tray Quality remains unchanged

Join us in our efforts to reduce plastic waste and switch to **ACCUMAX GreenMAX** Tip Racks today
