suitcase handle

Retaining eyelets
for the shoulder
(Shoulder strap
included in delivery)

Compact Oxygen backpack

The STAVANGER® C3000 is a compact oxygen backpack for O₂ cylinders up to 2 litres. In the lid there is a foil pocket that can be closed with a 2-way zipper for storing necessary ventilation accessories. The proven 2-handle design and the shoulder strap included in the scope of delivery make it comfortable to carry, even as a bag. The Stavanger® C3000 is also designed for oxygen supply during transport.

Proven magnet system

Truck tarpaulin, Original-CORDU-
RA® fabric and 3MTM Scotchlite
reflective strips
