

Safety data sheet

according to 1907/2006/EC, Article 31

Page 1/6

Printing date 05.02.2020 Revision: 05.02.2020 Version number 11

undertaking	
· 1.1 Product identifier	
· Trade name: <u>L(+)-Ascorbic Acid</u>	
 Article number: 1013 CAS Number: 50-81-7 EC number: 200-066-2 Registration number is not available for this sub from registration according to Article 2 REACH Reg 1.2 Relevant identified uses of the substance or No further relevant information available. Application of the substance / the mixture Labor 	ulation (EC) No 1907/2006. mixture and uses advised against
1.3 Details of the supplier of the safety data she	•
 Manufacturer/Supplier: PANREAC QUIMICA S.L.U. C/Garraf 2 Polígono Pla de la Bruguera E-08211 Castellar del Vallès (Barcelona) 	Tel. (+34) 937 489 400 Fax. (+34) 937 489 401 e-mail: product.safety@panreac.com
 Further information obtainable from: email: prod 1.4 Emergency telephone number: Single telephone number for emergency calls: 112 (Tel.: (+34) 937 489 499 	
SECTION 2: Hazards identification	
 2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1 The substance is not classified, according to the CL 	
 2.2 Label elements Labelling according to Regulation (EC) No 1272/ Hazard pictograms Void Signal word Void Hazard statements Void 	/ 2008 Void
 2.3 Other hazards Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable. 	

- · 3.1 Chemical characterisation: Substances
- · CAS No. Description
- 50-81-7 L(+)-Ascorbic Acid

(Contd. on page 2)

Page 2/6

Printing date 05.02.2020 Revision: 05.02.2020 Version number 11

Trade name: L(+)-Ascorbic Acid

Identification number(s)

· EC number: 200-066-2

SECTION 4: First aid measures

- · 4.1 Description of first aid measures
- · General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
- Immediately rinse with water.

If skin irritation continues, consult a doctor.

- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing: Rinse out mouth.

If symptoms persist consult doctor.

- **4.2 Most important symptoms and effects, both acute and delayed** No further relevant information available.
- **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

SECTION 5: Firefighting measures

- 5.1 Extinguishing media
 Suitable extinguishing agents: Water, CO2, foam, powder. Use fire extinguishing methods suitable to surrounding conditions.
 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire
- Formation of toxic gases is possible during heating or in case of fire. In case of fire, the following can be released: Carbon monoxide and carbon dioxide Non-combustible.
- 5.3 Advice for firefighters
- Protective equipment: Wear self-contained respiratory protective device.
- Additional information Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Avoid formation of dust.
 Do not inhale dust.
 Ensure adequate ventilation
 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground
- **6.2 Environmental precautions:** Do not allow to enter sewers/ surface or ground water.
- $^{\circ}$ 6.3 Methods and material for containment and cleaning up:

Pick up mechanically. Avoid formation of dust.

Clean up affected area.

- **6.4 Reference to other sections** See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage

• 7.1 Precautions for safe handling Provide suction extractors if dust is formed.

(Contd. on page 3)

(Contd. of page 1)

Page 3/6

Printing date 05.02.2020 Revision: 05.02.2020 Version number 11

Trade name: L(+)-Ascorbic Acid

(Contd. of page 2)

- \cdot Information about fire and explosion protection: The product is not flammable.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Provide acid-resistant floor.
- · Information about storage in one common storage facility: Store away from oxidising agents.
- · Further information about storage conditions: Keep container tightly sealed.
- · Recommended storage temperature: Room Temperature
- Storage class: 13
- 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- · Additional information about design of technical facilities: No further data; see item 7. · 8.1 Control parameters · Ingredients with limit values that require monitoring at the workplace: Not required. · Additional information: The lists valid during the making were used as basis. · 8.2 Exposure controls · Personal protective equipment: General protective and hygienic measures: Immediately remove all soiled and contaminated clothing · Respiratory protection: Required when dusts are generated. Filter P1 · Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation · Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. · Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. • For the permanent contact gloves made of the following materials are suitable: Nitrile rubber, NBR Recommended thickness of the material: \geq 0.11 mm Value for the permeation: Level \geq 480 min • As protection from splashes gloves made of the following materials are suitable: Nitrile rubber, NBR Recommended thickness of the material: ≥ 0.11 mm Value for the permeation: Level \geq 480 min • Eye protection: Safety glasses · Body protection: Protective clothing should be selected specifically for the working place, depending on concentration and quantity of the hazourdous substances handled. **SECTION 9: Physical and chemical properties**
 - 9.1 Information on basic physical and chemical properties
 - · General Information
 - · Appearance: Form:

· Odour:

Colour:

Solid White Odourless Trade name: L(+)-Ascorbic Acid

	(Contd. of page 3)
· Odour threshold:	Not determined.
· pH-value:	2.2-2.5
 Change in condition Melting point/freezing point: Initial boiling point and boiling ranges 	191 °C : Undetermined.
· Flash point:	Not applicable.
· Flammability (solid, gas):	Product is not flammable.
· Ignition temperature:	380 °C
· Decomposition temperature:	Not determined.
· Auto-ignition temperature:	Not determined.
· Explosive properties:	Product does not present an explosion hazard.
 Explosion limits: Lower: Upper: 	Not determined. Not determined.
· Vapour pressure:	Not applicable.
 Density at 20 °C: Relative density Vapour density Evaporation rate 	1.7 g/cm ³ Not determined. Not applicable. Not applicable.
 Solubility in / Miscibility with water at 20 °C: 	333 g/l
· Partition coefficient: n-octanol/water:	Not determined.
 Viscosity: Dynamic: Kinematic: 9.2 Other information 	Not applicable. Not applicable. No further relevant information available.

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:
- No decomposition if used according to specifications.
- 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials: No further relevant information available.
- \cdot 10.6 Hazardous decomposition products: In the event of fire: See chapter 5

SECTION 11: Toxicological information

- · 11.1 Information on toxicological effects
- Acute toxicity Based on available data, the classification criteria are not met.
- · LD/LC50 values relevant for classification:
- Quantitative data on the toxicological effect of this product are not available.
- Primary irritant effect:
- Skin corrosion/irritation Based on available data, the classification criteria are not met.
- · Serious eye damage/irritation Based on available data, the classification criteria are not met.
- · After inhalation: No irritant effect.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

(Contd. on page 5)

Printing date 05.02.2020 Revision: 05.02.2020 Version number 11

Trade name: L(+)-Ascorbic Acid

(Contd. of page 4)

Page 5/6

- \cdot CMR effects (carcinogenity, mutagenicity and toxicity for reproduction)
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.
- STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

- · 12.1 Toxicity
- · Aquatic toxicity: No further relevant information available.
- **12.2 Persistence and degradability** No further relevant information available.
- · 12.3 Bioaccumulative potential No further relevant information available.
- · 12.4 Mobility in soil No further relevant information available.
- Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Assessment by list): slightly hazardous for water Do not allow product to reach ground water, water course or sewage system.

- 12.5 Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · **vPvB:** Not applicable.
- 12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

- · 13.1 Waste treatment methods
- · Recommendation

Chemicals must be disposed of in compliance with the respective national regulations.

- · Uncleaned packaging:
- · Recommendation:

Disposal must be made according to official regulations.

- Packagings that may not be cleansed are to be disposed of in the same manner as the product.
- Recommended cleansing agents: Water, if necessary together with cleansing agents.

SECTION 14: Transport information

· 14.1 UN-Number · ADR, ADN, IMDG, IATA	Void	
 14.2 UN proper shipping name ADR, ADN, IMDG, IATA 	Void	
 14.3 Transport hazard class(es) 		
· ADR, ADN, IMDG, IATA · Class	Void	
 14.4 Packing group ADR, IMDG, IATA 	Void	
 14.5 Environmental hazards: Marine pollutant: 	No	
· 14.6 Special precautions for user	Not applicable.	
		(Contd. on page 6)

Trade name: L(+)-Ascorbic Acid

	(Contd. of page 5)
 14.7 Transport in bulk according to Annex Marpol and the IBC Code 	x II of Not applicable.
· Transport/Additional information:	Not dangerous according to the above specifications.
· UN "Model Regulation":	Void

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- · Directive 2012/18/EU
- · Named dangerous substances ANNEX I Substance is not listed.
- · 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road) IMDG: International Maritime Code for Dangerous Goods IATA: International Air Transport Association GHS: Globally Harmonised System of Classification and Labelling of Chemicals EINECS: European Inventory of Existing Commercial Chemical Substances CAS: Chemical Abstracts Service (division of the American Chemical Society) LC50: Lethal concentration, 50 percent LD50: Lethal dose, 50 percent PBT: Persistent, Bioaccumulative and Toxic vPvB: very Persistent and very Bioaccumulative • * Data compared to the previous version altered.
