

## Ordering information

### Polytetrafluoroethylene (PTFE)

- Hydrophobic membrane
- For nonpolar liquids and gases
- Very resistant to all kinds of solvents as well as acids and bases; flushing with alcohol, followed by water, makes the originally hydrophobic membrane more hydrophilic
- PTFE filters with integrated glass fiber prefilter\* (GF / PTFE) are recommended for solutions with a high load of particulate matter or for highly viscous solutions

Type	Pore size [ $\mu\text{m}$ ]	Membrane diameter [mm]	Standard pack filters / pack	REF	BIGbox filters / pack	REF
	Xtra PTFE-20/25	25	100	729207	400	729207,400
