

Alkaline laboratory cleaner for manual cleaning

## perform<sup>®</sup> classic concentrate mucasol

### Our Plus

- alkaline cleaner for powerful cleaning
- powerfully removes blood, protein, oil, grease, silicone, tar, wax, tap grease, resin as well as distillation residues
- high economic efficiency due to low application concentration
- free of caustic alkalis and chlorine compounds

### Application areas

perform<sup>®</sup> classic concentrate mucasol is used for the thorough cleaning of laboratory equipment, technical systems and consumable items and surfaces made of glass, porcelain, plastic, rubber, stainless steel, brass, zinc and copper.

### Instructions for use

Dosage: The dosage amount depends on the type of reprocessing and the degree of soiling of the objects. The following parameters are recommended for application:  
Immersion bath: 0.7 % - 3 % . Ultrasonic bath: 0.2 % - 2 %.  
Reaction time: 10 - 20 min.

Application example: 1 liter of a 2 % working solution corresponds to 980 ml water and 20 ml perform<sup>®</sup> classic concentrate mucasol.

Place objects to be cleaned in the working solution. Ensure complete wetting, also in the case of hollow instruments, and allow to act. After cleaning, thoroughly rinse/flush the objects with water of at least drinking water quality, better with sterile distilled aqua or fully demineralized water, to completely remove residues of the cleaning solution. An optimized cleaning result is achieved by heating the working solution.

To avoid protein denaturation: Temp. < 45 °C.

Please observe the manufacturer's reprocessing instructions.

# perform<sup>®</sup> classic concentrate mucasol

## Product data

Contains: tripotassium orthophosphate

## Special advice

**Always read the label and product information before use.**

**For professional use only.** Any contact between perform<sup>®</sup> classic concentrate mucasol and aluminum and color anodized aluminum (red) is to be avoided. If the solution should - by coincidence - come into contact with aluminum and color anodized aluminum (red), it is to be wiped or rinsed off as soon as possible. Do not mix with other products. Protect from frost, heat and sunlight. Store upright in the original container at room temperature. Dispose of completely empty packaging to the collection of recyclable materials. Keep container tightly closed.

## Information for order

Item	Delivery form	Item no.
perform <sup>®</sup> classic concentrate mucasol 2 l bottle	5/Carton	on request
perform <sup>®</sup> classic concentrate mucasol 5 l canister	1/Canister	on request
